A Baseball League's Approaching Demise.

READING, Pa., Sept. 7.—The agony of state league baseball came to an end here Thursday afternoon, when the so-called Reading club and Carbondale played a game in the presence of about fifty people. The three games which were to have been played here with Lancaster today and Monday have been transferred to the latter place. Next Tuesday the clubs will go to Hazleton and play there until Friday, when they will go to Lancaster and finish the season with two farewell games.

## A Giddy Old Boy.

EVANSVILLE, Ind., Sept. 7.—Joe C. Mills is about 70 years of age and worth \$50,000. His wife, Agnes, sued him for divorce, naming Ella Jones, a blind woman, as co-respondent. The complaint states that Joe and Agnes were married in 1843, and that in 1880 the old man became enamored of the blind woman and has ever since neglected his wife. He finally built a house at a cost of \$7,000 for Ella, right across the street from his own home, and spent most of his time with her.

## A Mine Closed Indefinitely.

SHAMOKIN, Pa., Sept. 7.—The Lehigh Valley Coal company, which seized the Morris Ridge colliery on executions issued because of arrearages in wages and coal royalties, has shut down the mine indefinitely. The mines have been looted and the pumping machinery is being removed, preparatory to allowing the mine to fill with water. Four hundred men and boys are thrown out of employment by this move.

## Killed While Going to a Funeral.

PITTSBURGH, Sept. 7.—While Nicholas Ohm and his daughter-in-law, Mrs. Nicholas Ohm, Jr., were on their way to a funeral their buggy was struck by a train in crossing the Baltimore and Ohio tracks near here. Mrs. Ohm was instantly killed and Mr. Ohm was so badly injured that he died while being taken to the hospital. He was 55 years of age and was a wealthy farmer. Mrs. Ohm was 25 years old.

## The Archduke's Wounds Proved Fatal.

BUDA PEST, Sept. 7.—Archduke Ladislaus, who was wounded by the premature discharge of his revolver while shooting on Sept. 2, is dead. The bullet penetrated his thigh, and at the same time caused the explosion of a number of cartridges which he was carrying in his pocket, terribly lacerating and burning his limbs. The archduke was a son of the Archduke Joseph, and was 20 years old.

## Death Ends a Sad History.

CAMBRIDGE, Mass., Sept. 7.—Daniel McNulty, a prisoner in the house of correction here, hanged himself in his cell. His death ends a sad history. Within the past three months all of his family except one son died. This preyed on McNulty's mind, and he sought forgetfulness in drink. Wednesday he and his son were arrested for drunkenness and being unable to pay their fines were committed for a short term. Thursday a friend secured the release of the son, but neglected the father, who, in a fit of despair, hanged himself.

## Death to the Tin Plate Industry.

CLEVELAND, Sept. 7.—Tin plate manufacturers in this city say that the big advance in the price of steel has killed the tin plate industry, and that in a few months every mill in the country turning out that product will be closed. J. W. Little, president of the tin plate mill, said: "The price in the neighborhood of \$100,000 a ton for steel has killed the tin plate industry in this country, and even in the United States, where it was once a great industry, it is now almost extinct. In four months, I think, not one of these mills will be running."

## Below the \$100,000,000 Limit.

WASHINGTON, Sept. 7.—A telegram received at the treasury department yesterday stated that \$100,000,000 in gold had been withdrawn from the treasury and had been taken to New York. Eighty million, however, were made at Chicago and other points aggregating \$100,000,000, so that the true amount of the reserve of the close of business was \$20,000,000. The cash balance was \$10,000,000. The treasury officials said in their report that the gold was not in the city, but there is no doubt that they were somewhat disappointed and that the syndicate behind the gold withdrawal was without and far from the city.

## How to be Handsome.

It is a mistake to suppose that the only way to be good looking is to be born so. Good health has more to do with good looks than anything else. Such diseases as constipation, dyspepsia, liver complaints, rheumatism, nervous disorders, &c., not only shorten life, but spoil tempers and "looks." Bacon's Celery King for the nerves cures these troubles. John J. Chambers sells it and will give a sample package free.

### LOW WATER IN SULLIVAN CO. PONDS.

A Veracious Contributor Tells How a Rock Hill Farmer Lost His Buckwheat Crop.

The season has been so dry that the supply of water in the D. and H. Canal feeders in Sullivan county has been exhausted and navigation has been suspended. Wolf, Fowles and McKee ponds have been drawn down to the lowest possible level, and Yankee and Masten ponds are almost exhausted. Never before in the history of the canal have the Sullivan county reservoirs been drawn on as they have this season.

At Rock Hill, Sullivan county, the little ice ponds are completely dried up, and Farmer Cuddelback, whose pond was stocked with German carp, has had the misfortune to lose his entire buckwheat crop. The carp, going overland in search of water, passed through his buckwheat field, and being hungry as well as dry, cleaned it up as lick as a dog of grasshoppers could have done. All his neighbors are up in arms, and in order to save their crops, are making use of every available weapon with which to exterminate the threatened pest. As fast as they are killed they are being salted down. Some farmers having as many as eight barrels in brine. Farmer Cuddelback says that if he can't have buckwheat cakes this winter he will have the next thing to them, buckwheat carp.

—The burdens of life are not equally borne by men and women.

—Women too often suffer from some weakness that was never intended for them by nature.

—When trouble or hard work or excitement has rendered the nervous system so morbidly wide awake that sleep is denied, the overworked brain must be helped to get quickly back to its healthy normal condition or serious mischief ensues.

—Paine's celery compound accomplishes this as nothing else has ever done.

—It at once begins to regulate and equalize the overworked nerves and to restore to them their lost tone.

—It brings to the disabled, debilitated nervous tissues the peculiar nerve food which they must have to build up their parts.

—"I took Paine's celery compound for dyspepsia, sleeplessness and nervousness," says Lillie B. Smith, of Williamston, N. J., "and I can recommend it as a good medicine. As

a result of taking it I feel better than I have for several years."

—When Paine's celery compound is used, members of the household recognize the signs of health gradually stealing over the face of the one that was pinched and worn by pain and sickness.

—Paine's celery compound is a perfect nerve food. It quickly feeds weakened parts, removes all irritation, allows the rest from pain they need so badly, and restores all the myriad, deep-lying nerve parts all over the body to a healthy, quiet working. This is the way this remarkable invigorator makes people well.

—Reports of its marvelous working come from cities as far apart as New Orleans and Montreal. There is not a town large enough to stand on a railroad map that has not contributed some word of warm praise and gratitude to the greatest nerve and blood remedy of this stirring end of the 19th century.

## WOMEN MUST SLEEP!

Value of Paine's Celery Compound to the Sick and Nervous.

The burdens of life are not equally borne by men and women.

Women too often suffer from some weakness that was never intended for them by nature.

When trouble or hard work or excitement has rendered the nervous system so morbidly wide awake that sleep is denied, the overworked brain must be helped to get quickly back to its healthy normal condition or serious mischief ensues.

Paine's celery compound accomplishes this as nothing else has ever done.

It at once begins to regulate and equalize the overworked nerves and to restore to them their lost tone.

It brings to the disabled, debilitated nervous tissues the peculiar nerve food which they must have to build up their parts.

"I took Paine's celery compound for dyspepsia, sleeplessness and nervousness," says Lillie B. Smith, of Williamston, N. J., "and I can recommend it as a good medicine. As

a result of taking it I feel better than I have for several years."

When Paine's celery compound is used, members of the household recognize the signs of health gradually stealing over the face of the one that was pinched and worn by pain and sickness.

Paine's celery compound is a perfect nerve food. It quickly feeds weakened parts, removes all irritation, allows the rest from pain they need so badly, and restores all the myriad, deep-lying nerve parts all over the body to a healthy, quiet working. **REPUBLICAN PRIMARIES.**  
Delegates Chosen for the Various Con-  
ventions.—A Weak Kick at Tom Platt.  
The Republicans of this city held  
their primaries, last night, and elect-  
ed delegates as will be found below.  
The machine seemed to be in good  
working order and ground out the  
delegates according to the slate.  
In the Second Ward, an attempt to  
pass a vote of censure on Tom Platt  
and his methods was made, but only  
six of the twenty-seven voters pres-  
ent had the courage to express their  
disapproval of the great boss.  
Mr. Robert Cochran offered a mo-  
tion that the delegates be instructed  
to oppose the methods of Mr. Platt.  
Mr. D. E. Linn thought it would  
look better to instruct the delegates  
that it was the sense of the primary  
that Platt's methods should be ap-  
proved. Six men voted for the mo-  
tion and three Plattites voted no.  
The other eighteen present have not  
yet declared themselves.  
Following are the proceedings of  
the primaries in detail:

The following delegates were  
chosen:

Swain and John E. Isaeman.

Dropped.**

the tickets is no longer in the employ  
of the company.

also a man named McKage, and on  
Monday last Thomas Fitzgerald, from  
the town of Callicoon, was sent to  
the same institution.

Dr. Hand's Teething Lotion reliev-

Hand's Colic Cure also, and at once  
saw a change for the better. These

## ONTARIO AND WESTERN'S SHOWING

**A Very Handsome Surplus Over Fixed Charges—Dividends on the Common Stock and Termination of the Voting Trust.**

The pamphlet report of the Ontario and Western Railway Company, just issued, bears striking testimony to the ability and integrity of the management. Reflecting as it does the operation of the road under peculiarly adverse conditions, the figures furnished are both surprising and gratifying.

The earnings for the year make the remarkable exhibit of \$326,382 over fixed charges. In the period there was a falling off of \$21,266 in local business, the source from which the company derives its larger part of revenue, but this was more than compensated for by an increase of \$77,282 in earnings from through freight.

Since 1891 the road's coal tonnage has increased from \$11,485, to 1,715,991 tons and its revenue from this source has risen from \$782,218 to \$1,581,227. The charges to construction and improvement during the year were \$347,014, against \$250,536 the year before.

The question of payment of a small dividend on the common stock, in order to terminate the present voting trust, has been considered upon by the London and domestic stockholders, with the conclusion that while the voting trust is in no way detrimental to the property, its dissolution should be brought about as soon as the company's earnings warrant the commencement of payment of annual dividends.

## THE RIGHT MAN FOR THE PLACE.

**A New Manager for the Orange County Telephone Company.**

The Orange County Telephone Co. has appointed Mr. Geo. G. Otis general manager. The company is fortunate in securing the services of so competent an electrician as Mr. Otis. He put in the Middletown and several other exchanges for the Hudson River Company, was at one time Superintendent of Signals for the Erie, and for the past two or three years has been the Electrical Engineer for the New Jersey Electric Railway Co., with headquarters in Rutherford.

Mr. Otis resided in Middletown for many years, and his friends will be pleased to know that he has returned to this city.

## Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 133 Florida St., San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at McMonagle and Rogers' Drug Store.

Cholera Morbus is a dangerous complaint, and often is fatal in its results. To avoid this you should use DeWitt's Colic & Cholera Cure, as soon as the first symptoms appear. W. D. Olney.

## PERMANENT STREET IMPROVEMENT FUND.

**Since It Cannot Be Spent This Year Why Not Use It for School Building Purposes?**

Now that it has been demonstrated that the Mayor has sufficient following in the Common Council to prevent the passage of the resolution to pave Wickham avenue over his veto, and there is no likelihood of a contract to pave East Main street being awarded, the city finds itself in the position of having collected \$7,500 from the people, which it cannot expend for any other purpose than for permanent street improvements, unless the people who paid the money shall by vote order otherwise.

This being the case, if the taxpayers vote to erect a high school building, what is the matter with using that \$7,500 towards the school building fund rather than let the money lie idle until next year and pay interest on a certificate of indebtedness for that sum?

The people are paying an increased tax rate this year with the expectation of having about \$30,000 worth of permanent street work done, but owing to the bungling work of the Common Council and the stubbornness of the Mayor, the season for such work has gone by and nothing has been done.

It has been many years since Middletown's streets were in worse condition at this time of year than they are to-day, and yet the people have been required to pay \$14,500 for street work—a larger sum than they ever paid in a single year.

If we are to have a new school building, which seems to be a necessity, let the necessary steps be taken to apply the unused street fund already paid by the people towards the school building fund. The people will then get some benefit which they will not otherwise, this year at least.

## New Arrangements Between the O. and W. and West Shore.

After Jan. 1st, the O. and W. will no longer pay train mileage to the West Shore, but will be charged its proportion of maintenance cost of that line between Cornwall and Weehawken, together with its pro rata of interest on \$2,000,000 at four per cent. and such sums as have been expended for necessary improvements since January, 1888.

## The Salt Water Line in the Hudson.

Hudson River fishermen having requested the State Commissioner of Fisheries, Game and Forests to designate the line between brackish and fresh water in the river, the President of the Board has decided that for the present the line shall be considered as extending east and west from the Saugerties lighthouse.

## The Quaker's Advice.

Don't thee wed for money friend.  
For money hath a sting;  
Don't thee wed a pretty face,  
'Tis a very foolish thing.  
Don't thee wed for place or fame—  
'Twill disappoint all hopes for thee;  
But choose a girl who wants to see  
“A Midnight Frolic” and Lillian Kennedy.

## OBITUARY.

**Effie May Lorey.**

Miss Effie May Lorey died at noon, yesterday, at the residence of her sister, Mrs. Chas. Bellinger, at Mechanicstown, aged seventeen years. Lung disease was the cause of death.

The body was taken on the Orange County Express, this morning, to Brewsters, Putnam county, where the funeral and interment will take place.

## How the \$7,000 Street Fund is Being Spent.

The city authorities are putting dirt on West Main street and Monahan avenue that is so thoroughly “earthy” that it is being blown away in dust almost as fast as it is dumped upon the street. Whatever is left will be converted into mud when the first rain fall comes. Such street work is a waste of money; but then Mr. Reed, of the Street Committee, has given the assurance that the committee will manage to spend that seven thousand dollars.

## Burglars at Craigville.

Thieves entered the post office at Craigville, Wednesday night, by prying open a window. The booty secured was four cents in money and a coat belonging to Mr. Doesch, father of Mrs. Thorn, the postmaster.

The express office was entered the same night and a package consigned to Selah Huntin and a \$25 cornet were stolen.

## Didn't Get Much Money.

Mr. Edwin Jay Dikeman, of Goshen, sent a man to the Commercial Hotel, to-day, to get his pocketbook, which Mr. Higham found in the lusk tank, yesterday. The man said there was only about \$14 in the book when it was stolen.

## He Should Get Posted.

A knowledge of streets by electric railway conductors is an absolute necessity, yet one of them surprised his passengers at Goshen, yesterday, by inquiring if there was a street known as Academy avenue in Middletown.

## The Tax Collections.

City Clerk Hamilton received this forenoon \$9,470 65 of city taxes, making a total of \$87,766 45 collected during the first thirty days. There is a balance of \$10,497 58 still to be collected, on which a fee of five per cent. will be charged.
